

## **PV Crystalox Solar to exhibit at EU PVSEC, Hamburg.**

1 September 2011

PV Crystalox Solar will be exhibiting at the 26th European Photovoltaic Solar Energy Conference and Exhibition in Hamburg from 5th to 8th September 2011.

Please join us at booth B5/B10 to meet us and find out more about our products and technology.

The graphic is a yellow rectangular banner. On the left side, there is a dark blue rectangular area containing a bright sunburst over a blue sky with white clouds. The text 'the key to solar power' is written in white over this image. Above this image, the 'pv crystalox solar' logo is displayed. To the right of the image, the text 'Join us in Hamburg!' is written in a large, bold, blue font. Below this, in a smaller blue font, is the text: 'Meet PV Crystalox Solar and learn more about us, our products and our technology.' Further down, it says '26th European Photovoltaic Solar Energy Conference and Exhibition in Hamburg September 5-8, 2011'. Below that, it says 'We look forward to meeting you at' followed by 'B5 / B10' in a bold blue font. At the bottom right, the website 'www.pvcristalox.com' is written in a white font.

### **Notes to the Editors:**

PV Crystalox Solar is a highly specialised supplier to the world's leading solar cell manufacturers, producing multicrystalline silicon wafers for use in solar electricity generation systems.

Our customers, the world's leading solar cell producers, incorporate these wafers into solar modules to harness the clean, silent and renewable power from the sun. We are playing a central role in making solar power cost competitive with conventional hydrocarbon power generation and, as such, continue to seek to drive down the cost of production whilst increasing solar cell efficiency.

The Group's own polysilicon plant is in Bitterfeld, Germany. The Group manufactures silicon ingots in Oxfordshire, United Kingdom, and carries out wafer production for European customers at its facilities in Erfurt, Germany. Wafers for customers in Asia are produced in Japan.
